Fixed an issue where dates were being displayed incorrectly on the business and user reports.

-	
~	Fixed an issue where face-to-face initials were not showing on the first place when viewing th
	document on the system, but did show when downloading the document.
¢	Fixed date sorting issues on the line charts in the reporting section.
~	Fixed an issue where a user was unable to edit some of the info on their profile page, which shoul
	have been editable.
~	Fixed a spelling mistake on the completed documents page on the dashboard.
2	Fixed styling issues on the completed documents page on the dashboard.
	Fixed an issue where an error was produced when a user tried to apply only one initial at a time an
	save.
~	Made changes to jQuery to prevent a possible prototype pollution issue.
	Fixed an issue where the signature appearance was not displayed correctly when using USB Ke
	signing.
2	Fixed an issue that prevented workflow templates from being applied in some cases when pro-
	allowed was disabled on a business level.
2	Added correct region URL settings to EasiSign for the footer section.
	Fixed an issue during workflow creation where the page loader would seem stuck after removir
	the last user from the workflow.
~	Fixed an issue where the table/grid that displayed the predefined face-to-face during workflo
	creation would not show.
~	Fixed the "Return to login" button on the logout page after a document had been signed and the
	user opted to log out.
~	Fixed minor spacing issues in the layout for the workflow creation section.
	Fixed an issue where users that where business administrators and who were net set as team lead
	were not able to assign users to a team.
~	Fixed an issue during face-to-face signing where if a user opted to scan the QR code to draw the
~	signature, an error would appear during saving.
~	Fixed an issue during approving/signing where a document that had been approved kept appearir
	on the pop up when 'Approve all' was selected.
~	Fixed an issue where date pickers where not being translated.
	Fixed an issue where the document templates selector displayed on the document upload section
<u> </u>	even when no document templates had been created.
~~~	
<u> </u>	Made changes to the AddWorkflowStepV2 method to handle null values being passed in for mobinumber.
~	
e	Ensured that the electronic and digital signature images are updated once a user updates the
_	signature in their profile.
~	Fixed an issue on the tooltip that occurred when hovering over the language preference section
_	during workflow creation.
~	Fixed an issue where the "Check all" button did not appear on the completed documents page of
	the dashboard.
	Fixed an issue in DocFlow that prevented the destinations from displaying.
	Fixed an issue on the completed documents page where an error was shown after the last document

~	Fixed an issue in DocFlow where bookout information was not being displayed on the document
	search page.
~	Fixed in issue where users could not be edited in the admin sections if they had a blank ID Type set
	instead of a valid value or "None".
~	Fixed an issue in DocFlow where existing bookout locations were not saved when a bookout was
	requested.

Fixed an issue where signing the same field twice caused signatures to invalidate.
