

Electronic Signatures in Zambia

Electronic signatures in Zambia are legally recognised under Zambian law, the Electronic Communications and Transactions Act of 2021. It permits the use of electronic signatures in Zambia and regulates e-commerce transactions.

Depending on the document type, various types of electronic signatures are admissible in court. These include standard electronic signatures, digital signatures, and advanced electronic signatures (AES).

Legality of Electronic Signatures in Zambia

The Electronic Communications and Transactions Act of 2021 in Zambia authorises the utilisation of electronic signatures and governs e-commerce transactions. According to Section 6(2), an electronic signature retains legal validity, irrespective of its electronic format.

The Act defines an “electronic signature” as “a) sound; (b) symbol; (c) process; or (d) other data created or adopted by a person with the intent to sign a data message.”

SigniFlow Software fully adheres to the stipulations outlined for electronic signature implementation in Zambia, as outlined within the Electronic Communications and Transactions Act of 2021.

When looking at Digital and Advance Electronic Signatures in Zambia Section 35 specifies that the National Root Certification Authority has the authority to acknowledge, via publication in the Gazette and under conditions set by them, licenses, accreditations, or recognitions granted to foreign certification authorities by foreign countries. As the SigniFlow platform is Certificate Agnostic, we can integrate with any approved certificate in Zambia, be it local or an acknowledged foreign certificate.
