

Legal Sector

SigniFlow Advanced eSign document solutions for the Legal Sector. In the legal sector, contracts are scrutinised down to the minutest details, and a signature is worth its weight in gold.

Wow your clients with super-fast electronic document delivery and legally binding Advanced eSignatures.

The Digital Law Firm

The rapid shift from wood-panelled boardrooms to video collaboration comes with its fair share of challenges. The new legal landscape has changed the way litigation is done. Similarly, it has shaped the demand on legal practitioners and how electronic contracts are delivered. The ability to quickly deliver electronic contracts, with trackable workflows and legally binding Advanced eSignatures, is key. SigniFlow makes it easier for legal practitioners to manage matters and legal projects.

An eSign automation tool that brings it all together.

Legal practitioners everywhere have spoken and we've listened. We get you. Concluding contracts faster and more accurately, while increasing non-repudiation, is a game changer. SigniFlow was built to automate and digitise the customer journey. Use SigniFlow on its own, or with your favourite legal contracts management software.

You need more than just eSign workflow, you need a tool that understands the legal sector.

LEGAL EFFICIENCY

Sign contracts quickly and remotely

SigniFlow makes it easy for legal firms to send contracts to remote signers for eSignature.

Standard with trackable workflows, automated reminders, automated filing and detailed audit logs.

AUTOMATION

Leave nothing to doubt

With every contract signed, SigniFlow builds up three independent audit logs, per signatory. Evidence of identity, process and authentication is embedded, and the document is sealed.

MEANINGFUL ENGAGEMENT

More engagement

Let's return to a world where we shake hands and engage in meaningful conversation.
