

The eSign solution for the Banking department

SigniFlow Advanced eSign document solutions for the Banking industry. In a competitive landscape where it's all about service delivery to the digital citizen, the bank that offers the most convenience, keeps the client.

Wow your clients with super-fast electronic document delivery.

The Digital Bank

The shift from traditional to digital banking is accelerating at an unbelievable pace. The challenges banks face in digitising the last mile, are significant.

Retail banking is rapidly changing from brick and mortar, to transacting remotely with customers you have never seen.

The pressure on corporate business banking to deliver better, faster services to the executive working from home is ever increasing.

SigniFlow is here to help with integrated systems that automate & digitise electronic document delivery.

An automation tool that brings it all together.

Banks everywhere have spoken and we've listened. We get you. Being able to deliver electronic contracts quickly, while keeping everything legally compliant, is a balancing act.

SigniFlow was built to automate and digitise the customer journey. We understand the complexities of integrating with core banking, treasury and enterprise service bus systems.

You need more than just eSign workflow, you need a tool that understands banking.

THE DIGITAL BANKER

Sign contracts quickly and remotely

SigniFlow makes it easy for bankers to send contracts to remote customers for eSignature. Standard with trackable workflows, automated reminders, automated filing and detailed audit logs.

DEEP AUTOMATION

Automating the last mile

Generate electronic contracts with variable clauses in seconds. Automate complex workflows with SigniFlow Connect. Impress customers with speed and agility.

MEANINGFUL ENGAGEMENT

Engagement

Imagine a world where bankers visit customers to engage in conversation that is not about signing contracts.
