

Insurance

SigniFlow Advanced eSign document solutions for the insurance industry. In a competitive landscape where it's all about service delivery to the remote customer, the insurer that offers the most convenience, gets the client.

Accelerate your contract delivery process and reduce static risk with SigniFlow for Insurance.

The Insurance Chain

It's all about service delivery. The insurer with the fastest, most convenient system, gets the deal.

Underwriters have an obligation to brokers, intermediaries and customers alike.

The customer, who demands convenience and compliance, buys peace of mind from a broker.

SigniFlow delivers on both.

Increase compliance, while delivering true digital convenience.

A tool that brings it all together, and delivers convenience.

Insurers everywhere have spoken and we've listened. We get you. Delivering electronic contracts quickly, while keeping everything legally compliant, is a balancing act. Long-term and short-term insurance each have their own challenges. Customers demand convenience on the front-end, while the law demands compliance. SigniFlow delivers speed and convenience on the front-end, and compliant systems on the back-end.

You need more than just eSign workflow, you need a tool that understands insurance.

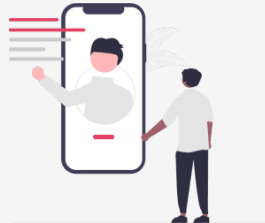

THE DIGITAL INSURER

Sign contracts quickly and remotely

SigniFlow makes it easy for insurers to send contracts to remote customers for eSignature. Standard with trackable workflows, automated reminders, automated filing and detailed audit logs.

CONVENIENT INSURANCE

The early bird catches the worm

Get your insurance policies delivered faster and more accurately. Automate the customer journey and go fully digital with SigniFlow Connect. All this, while increasing compliance.

MEANINGFUL ENGAGEMENT

Engagement

Imagine a world where brokers visit customers to engage in meaningful conversation that is not about paperwork and signing policies.
